

# LODGE ASKS TREATY VOTE BE TAKEN ON NOVEMBER 12

The Senate rested today despite pressure from many sections of the country and a desire among many Senators to get a final treaty vote at the earliest possible date.

Pending, however, are proposals from Republican and Democratic leaders designed to speed action.

Would Vote November 12. One by Senator Lodge would bind the Senate to begin voting not later than 5 p. m., November 12, and would limit debate meanwhile.

Another by Hitchcock would require the Senate to meet an hour earlier every day, and would limit Senators to one fifteen-minute speech on each proposal to change the treaty.

These proposals will be discussed Monday, it is expected, and the Senate may agree on a course, which will bring a final treaty vote before the middle of November.

## GOVT. SCORED BY D. C. STRIKE ENVOY

"The miners will stay out three months or six months if necessary. They will starve rather than surrender now."

A stocky, deep-eyed, fighting Scotch miner, Edgar Wallace, one of the representatives of the United Mine Workers in Washington, made this statement at American Federation of Labor headquarters today.

"All this talk about this being a leaders' strike is nonsense," he continued. "It's a strike of the rank and file. Just wait and see what happens."

"There is a tidal wave of accumulated bitterness among the miners. God knows there is reason enough for a strike. The whole story will come out in the wash now. I predict that the American public will be swept with sympathy for these miners when the true story becomes known."

"You can't down these men and you can't drive them. The policy of the Government seems to be based on the idea that they can be brow-beaten, coerced, or intimidated. That is a colossal mistake. The whole Washington viewpoint is wrong. I hope the bureaucratic policy of the Government is changed before it is too late."

"The miners will only go back to work when a new contract is placed in their hands according to their demands. They are done with talking. I know the spirit of these men, and they are willing to face privation, suffering, and famine before they will yield."

The miners have a strike fund of more than \$15,000,000, according to Mr. Wallace. It is not held by the central organization, but chiefly by the locals and the district organizations. The main headquarters of the United Mine Workers has virtually been put out of business by Judge Anderson's injunction, and the law will be scrupulously obeyed. The leadership of the strike devolves upon the district councils and the locals.

The whole strike organization has been developed to such an extent that the leaders count upon it running almost automatically. Nothing has been left to chance.

## U. S. LEAVES LEGAL STEPS TO AMES

The Government's next legal step against the strike leaders will be initiated by Judge Ames, in Indianapolis. It was stated at the Department of Justice today. Judge Ames has been given full power to proceed as he sees fit, and it will be with him to determine whether the strike leaders shall be adjudged of contempt of court by allowing the strike to go into effect after a restraining order has been issued.

Mine leaders here were open in their expression of confidence that the Government cannot stop the strike by action against the strike leaders.

"They can put Lewis in jail and the strike will go on," declared Walter James, Washington representative of the United Mine Workers of America, today. "They can put all of the strike leaders in jail, but the strike will lead themselves. The strike is effective and it will be effective because the men are determined to strike for their rights."

Labor leaders here were fearful that the strike might spread to other trades immediately. Samuel Gompers has issued a statement warning of such action, but it is known that Gompers was forced to this action by the combined force of the United Mine Workers and the railway unions affiliated with the American Federation of Labor.

W. H. Johnston of the International Machinists' Union, left hurriedly for Toledo and it was feared this movement might be the first step in a renewal of the strike movement by the railroad shopmen. It is clearly evident today that the entire labor movement was beyond the control of Samuel Gompers and other conservative leaders.

The Railroad Administration was proceeding today with its orders for the distribution of coal under wartime regulations. Already large numbers of cars have been moved into the Southern mine fields where it is expected the strike will be the least effective. Regional directors of the Railroad Administration and district representatives of the Fuel Administration have been ordered to enforce the regulations for preferential distribution of coal.

Seizure of coal by the Railroad Administration was in effect everywhere today.

Secretary of the Interior Lane today issued a statement from the Geological Survey declaring that coal production in the bituminous fields during the week ending October 25 totaled 13,117,500, or a daily output of 2,186,250 tons, the high mark for the year. This large production will forestall a famine for some time with the aid of the fuel regulations, it was declared.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

## GOMPERTS' ATTACK ON GOVERNMENT FOR ITS ATTITUDE IN COAL STRIKE

Samuel Gompers, speaking for organized labor, last night issued the following statement:

"Throughout the period of the war and during the nation's time of stress the miners of America labored patriotically, and arduously in order that the principles of freedom and democracy might triumph over the forces of arbitrary authority, dictatorship and despotism."

"When armed hostilities ceased last November the miners found themselves in the paradoxical position where their intensive labor was being used to further enrich the owners of the coal mines and merchants dealing in coal by the immediate reduction of the price of the coal. Of course the mine owners readily conceived that an overabundance of mined coal would seriously disturb the high prices of coal and endanger their large margin of profits."

Limit of Endurance Reached. "On the other hand the miners found that, with the constantly rising cost of necessities of life and with their income reduced over 50 per cent because of idleness, they had reached the limit of their endurance."

"Orderly and improved proceedings were invoked to negotiate a new understanding with the mine owners which would enable the miners to work at least five days during each week throughout the entire year and allow them a wage sufficient to enable them to live in decency and free from many of the pressing uncertainties of life."

"In attempting to negotiate this new understanding and relation the miners found that their plea for continuous employment would destroy mine owners' arrangements to curtail the mining of coal so as to continue exploiting the public with high and exorbitant prices."

Cleverly Met Issue. "The mine owners very cleverly met the issue by appearing willing and anxious to negotiate, but only if the miners would first throw aside the only power at their command to gain a respectful hearing and fair consideration, the decision to strike whenever it was demonstrated fair dealings did not prevail."

We are now faced with a coal strike of vast magnitude. The Government now proposes to intervene because of a possible coal shortage. Apparently the Government is not concerned with the manipulation by the mine owners which has made for present coal shortage and undue unemployment of the miners for the past eleven months."

Told War Is Not Over. Instead of dealing with those responsible for this grave menace to the public welfare it now proposes to punish those who by force of circumstances have been the victims of the coal barons' exploitations."

The miners are now told the war is not over and that all war legislation is still in force, and if reports received here are correct the Government intends to apply existing war measures, not against the owners of the coal mines, but against the coal miners."

The Government has taken steps to enforce war measures by an injunction and it has restrained the officials of the United States Mine Workers from counseling, aiding, or in any way assisting the members of this organization for relief against grievous conditions of life and employment."

Abraham Lincoln Quoted. It is almost inconceivable that a Government which is proud of its participation in a great war to liberate suppressed peoples should now undertake aims, hopes and aspirations of a group of its own people."

It is still more strange that a nation which may justly be proud of its Abraham Lincoln should now reverse the application of the great truth he enunciated when he said that as between capital and labor, labor should receive first and foremost consideration."

Injunction Bodes Ill. The injunction against the United Mine Workers bodes for ill. An injunction of this nature will not prevent the strike—it will not fill the empty stomachs of the miners. It may restrain same leadership, but will give added strength to unwise counsel and increase bitterness and friction."

This injunction can only result in creating new and more disturbing issues which may not be confined solely to the miners. These views were presented to Attorney General Palmer in a conference lasting nearly two hours by President Gompers, Secretary Morrison and Vice President Wolf, of the American Federation of Labor."

Word was received from Mrs. Claire Palmer Thurston, State organizer for the Indiana chapter, that three posts had been organized in that State during the past week.

Mrs. Kate Waller Barrett, president of the Alexandria chapter, and Mrs. T. C. Howard, vice president of the Alabama chapter, sent their best wishes for success in the campaign for new members."

## GIRL SCOUTS END CAMPAIGN TONIGHT

The local Girl Scout campaign to obtain 10,000 sustaining members to help finance extension of the work in the District will come to an end tonight. Today the 1,000 Girl Scouts of the city and the numerous officials of the Girl Scouts' Association are making a last-minute spurt to reach the coveted goal.

Although the drive will end tonight, a definite and accurate report on the results of the campaign probably will not be possible before Tuesday. The sixty-odd troops here are scattered all over the city, and as the girls will work at their task until late tonight, many of the scouts will be unable to make their returns to headquarters, room 215 Woodward Building, until Monday. All returns must be made to local headquarters by Monday afternoon, as Scout officials are required to begin work early Monday night on their final report, which must reach New York headquarters on Wednesday.

Winding Up Canvass. While the girls today are completing their visits to friends and relatives in an effort to interest them in the work and get their promise to subscribe, scout councilors, captains, and lieutenants are winding up their canvass of offices, stores and markets. The publicity given the financial drive has resulted in arousing city-wide interest in the organization, and requests from all sides are being made for the formation of additional troops. Fifty girls at Central High School yesterday applied for admission to Troop 9, captained by Miss Elizabeth Dubois Bache, director of domestic science at Central. Two troops are to be formed next Friday at Eighteenth street, and Columbia road northwest.

Wants Flag Information. That the public is becoming better acquainted with the organization and is realizing its value was illustrated today when a Sunday school superintendent appealed to the scouts for information concerning the history of the American flag which he wishes to teach to his pupils.

Between forty and fifty Girl Scouts are to be presented certificates of appreciation by the War Camp Community Service for their work during the war in entertaining and caring for service men at the various camps.

## COAL STRIKE JUDGE WELL KNOWN FOR LABOR CASES

INDIANAPOLIS, Ind., Nov. 1.—Judge Albert B. Anderson, who granted the injunction in favor of the United States against the United Mine Workers in Indianapolis yesterday, has long been a figure on the Middle Western bench. He has a reputation for rigorous dealings with labor law-breakers. He has been seventeen years in his present place.

Judge Anderson presided at the trial of the famous cases of conspiracy to dynamite, following the conviction of the McNamara brothers here. He presided at the trial of both the Terre Haute and the Indianapolis wholesale election fraud cases and at the trial of the libel suit by Theodore Roosevelt against the Indianapolis News.

Although the drive will end tonight, a definite and accurate report on the results of the campaign probably will not be possible before Tuesday. The sixty-odd troops here are scattered all over the city, and as the girls will work at their task until late tonight, many of the scouts will be unable to make their returns to headquarters, room 215 Woodward Building, until Monday.
